# Let the future flourish

The cut flower industry is a vibrant and ever-evolving sector covering a wide range of activities, from growing plants to creating the most beautiful floral arrangements. As a breeder and supplier of young plant materials, HilverdaFlorist is at the beginning of the supply chain. To serve the market in the best way possible, we make sure that we develop varieties that are relevant, distinctive, and add value to our entire society. This is achieved by joining forces and sharing knowledge with you, so we can excel together for a flourishing future.

Our team benefits from over 110 years of experience, which we combine with the innovative opportunities the future holds. This reflects in the way we work and the products we develop. We see increasing demands within the industry: the worldwide community is more and more focused on responsible and sustainable goods. HilverdaFlorist recognizes that transparency and proactivity are essential in this market and strives to be a reliable and supportive partner moving along with you.

Besides working on new and unique genetics every day, HilverdaFlorist is continuously investing in automation and innovation of cultivation and breeding technologies. Our aim is to constantly stay ahead in both our products and services. We see our distribution and sales network as the driving force of our business, in which we will continue to invest in the coming years. Over the past year, we have accomplished various optimisations in both our facilities in the Netherlands as well as in Colombia, Kenya, and India.

Together with our colleagues, partners, and clients, we officially opened our new future-proof production location in De Kwakel, NL. Besides this, we would love to welcome you to our show greenhouses, presenting both our cut flower assortment and all our other products. Furthermore, we focus on investments in our company, including HilverdaFlorist Colombia, Murara Plants, and KF Bioplants.

## Bart's favourites

Our team is looking forward to flourish together with you. To keep providing you with strong genetics, high-quality starting materials, and outstanding service, we have extended our product range with new varieties. I would love to share a selection of personal favourites from our new varieties:

### Standard Alstroemeria Green Wonder

Ready for a ground-breaking variety? Green Wonder makes great steps in the world of green varieties when it comes to growing characteristics, producing an impressive amount of flowers. See page 12.

### Gypsophila Zinzi® Sanae

New to our Zinzi® Series is Sanae! Sanae produces an endless flush of bright white flowers that are easy to harvest. See page 57.

### Scabiosa Virtuoso

We are happy to share with you our brand new promotional concept: Scabiosa Virtuoso! This series is packed with great Virtuosos we all admire. One of the 2024 introductions is Bernini, a subtle but impressive lilac coloured variety with improved characteristics. See page 72.

The HilverdaFlorist team is here to help you compose programmes, come up with creative solutions, and support you when it comes to cultivation or market approach. We can create a world that is not only beautiful, but also responsible and sustainable. Let's flourish together!

## Spreading the message of Alstroemeria

Alstroemeria, the timeless favourite for floral arrangements, never fails to captivate. Its enchanting quality lies in the element of surprise it offers when its buds unfold, revealing stunning flowers. To spread this message further, we support grower initiatives and join forces, such as with the crop cooperative Every Alstroemeria in the Netherlands.

# Alstroemeria Florinca

Florinca Jade

## Alstroemeria Florinca

Discover Florinca! The spray Alstroemeria with sturdy stems, lots of elegant small flowers and a distinctive inflorescence. All Florinca varieties are pollen-free, resulting in an outstanding vase life without dropping petals. Harvest Florinca at a later stage than your average Alstroemeria, with one bud open and others on the verge of popping and revealing their convincing colours. All flowers open in the vase, up until the last one.

# Carnation Standard

## Carnation Standard

Our range of Standard Carnations features outstanding, uniform varieties with large, ruffled multi-petaled flowers - one single flower at the end of a firm individual stem. These all-time favourites are blessed with a light scent and come in a spectacular colour range, that keeps on growing. Bright, bold, pastel or bicolour, all varieties are extremely long-lasting and versatile in floral designs.

# Sparkz<sup>®</sup> Solomio<sup>®</sup>

## Dianthus Sparkz<sup>®</sup> Solomio<sup>®</sup>

The Solomio<sup>®</sup> series endears with blushing, rounded flower petals in a ray of soft to bright colour tones. The flowers of Solomio<sup>®</sup> varieties appear high on the stems and are composed of petals that emerge horizontally to create an almost flat surface. The result is a truly surprising flower, which is easy for florists to work with and immediately shows colour in a bouquet.

## Gypsophila Zinzi®

Our Gypsophila Zinzi® collection features highly productive varieties of Baby's Breath for indoor and outdoor cultivation. They are robust and less sensitive to day length variation. The firm branched stems of Zinzi® have an upright structure, making them much quicker and easier to harvest and to handle during grading and bunching. The flowers create a wonderful retail presentation and, where other Gypsophila is quite static on the vase, Zinzi® keeps on blooming and developing.

### The increasing demand of this multifunctional product

Limonium is becoming more and more popular worldwide. Its benefits matter to all parties in the floricultural chain. This versatile product offers consistency and high quality throughout the seasons, has a high production level, and sturdy stems. The bright colours are a valuable addition to any bouquet and add a lot of volume. Not to mention the long vase life and even the suitability as a dried flower.

Eric Bouman - Managing Director Murara Plants Ltd.

# Limonium Wings & Glacier

## Limonium Wings & Glacier

Within *Limonium sinuatum*, a.k.a. Statice, our Wings & Glacier series excel with big brushes, an exceptionally long vase life and stand-out colours. It is very versatile too, since you can use it both as a fresh and a dried flower. The series are suited for greenhouse production and the varieties match well together. Wings varieties add lots of volume and offer high quality stems. Glacier varieties easily produce branches. Ask our team for the varieties best suited to your region.

## Continuous optimisation

Together with our team of breeders we are continuously optimising to make sure we offer the best possible varieties suiting the most wide-ranging climates and market demands. Our primary goal for Limonium is to develop new varieties with reduced sensitivity to short-day conditions and high temperatures. This makes it possible to offer consistently high-quality stems throughout the season.

Alstroemeria	Rhizome / Tissue culture	Ø 5 cm	40 cell	
	Rhizome / Tissue culture	Ø 9 cm	24 cell	
Dianthus	Unrooted cuttings			2.500
	Rooted cuttings	Ø 2,5 cm	144 cell	500
Gypsophila	Rooted cuttings	Ø 2,5 cm	144 cell	500
	Rooted cuttings	Ø 4 cm	84 cell	
Helleborus	Tissue culture	Ø 2,5 cm	144 cell	
	Tissue culture	Ø 5 cm	40 cell	
Limonium	Tissue culture	Ø 2 cm	180 cell	
	Tissue culture	Ø 4 cm	84 cell	
	Tissue culture	TC rooted		
Scabiosa	Rooted cuttings	Ø 4 cm	84 cell	500

Alstroemeria

Dianthus

Helleborus

Limonium

### A promising step towards efficient production

Our production location in De Kwakel, the Netherlands has been expanded with a future proof facility spread over 3 hectares making it 8,7 hectares in total. This location features the latest techniques in smart growing, with a clear focus on durability, efficiency, hygiene and energy reduction. With this new production location, HilverdaFlorist is ready for the future and able to respond better to the changing market conditions and customer demands, creating the most optimal young plants for your business!

# What we offer

HilverdaFlorist is your partner with a strong global presence. We lead the market in selecting, breeding and propagating unique varieties in cut flowers and pot, patio & garden plants. You can count on us to supply you with high quality young plant material suited for your specific climate and cultivation method.

## Reliability is our basis

With the entire supply chain under our own management, from breeding to propagation in our own laboratories and young plant production facilities, you know who you are doing business with. Through continuous focus on international markets and more than 110 years of experience in horticulture, we are able to fine-tune our business activities accurately in the event of changes, so that our products are always relevant, groundbreaking and profitable.

## Ambitious team

Our team is driven and always eager to help you excel with the best varieties for your specific business. Devoted to build and maintain trusting relationships, we warmly welcome you in our new show greenhouses, meet you online or at tradeshows and visit you personally at your own company. We strive constantly for improvements and a true connection is the key to thrive together.

## A focus on innovation

Business opportunities, to improve and collaboration throughout the chain, motivates us to invest in the future. We learn, tackle challenges and develop by collaborating with the best professionals, experts, and organisations in their fields. By worldwide trialling of our varieties, investing in external and in-house R&D and continuously developing our own business processes, we focus on moving forward and aim for durability, resilience and efficiency.

## Long-lasting partnership

We go beyond the customer-supplier relationship. Together with you we want to create, innovate and find solutions to our biggest challenges, advancing the world of horticulture forward. Let's share our triumphs and insights, to grow and improve side-by-side. Through our solid worldwide network of subsidiaries and partners, you have access to a wide range of experts on R&D, breeding, propagation, cultivation techniques, logistics, sales and marketing with lots of regional specific know-how.

# Global partnership

In order to maximize efficiency, we have decentralised parts of our business activities to our trusted subsidiaries and joint ventures. With this we achieve significant advantages in strategic, logistic and technological aspects. Together with our partners in production, sales and distribution, we set up a solid global network, offering you the best possible support and local services.

Browse to the next page for our worldwide agent list marked in this map.

**HilverdaFlorist Colombia S.A.S.**

Subsidiary, specialist propagator and young plant supplier for Dianthus, Alstroemeria, Limonium, Gerbera, Scabiosa, Helleborus and Gypsophila, with exclusive sales in Colombia and additionally in other Latin American countries. [hilverdaflorist-colombia.com](http://hilverdaflorist-colombia.com)

**Murara Plants Ltd.**

Subsidiary, specialist propagator and young plant supplier to exclusively sell and distribute the complete assortment of HilverdaFlorist products in Africa.

[muraraplants.com](http://muraraplants.com)

**HortiPartners**

Joint venture in the Netherlands between HilverdaFlorist and H.M. Tesselaar for research and breeding activities for Alstroemeria.

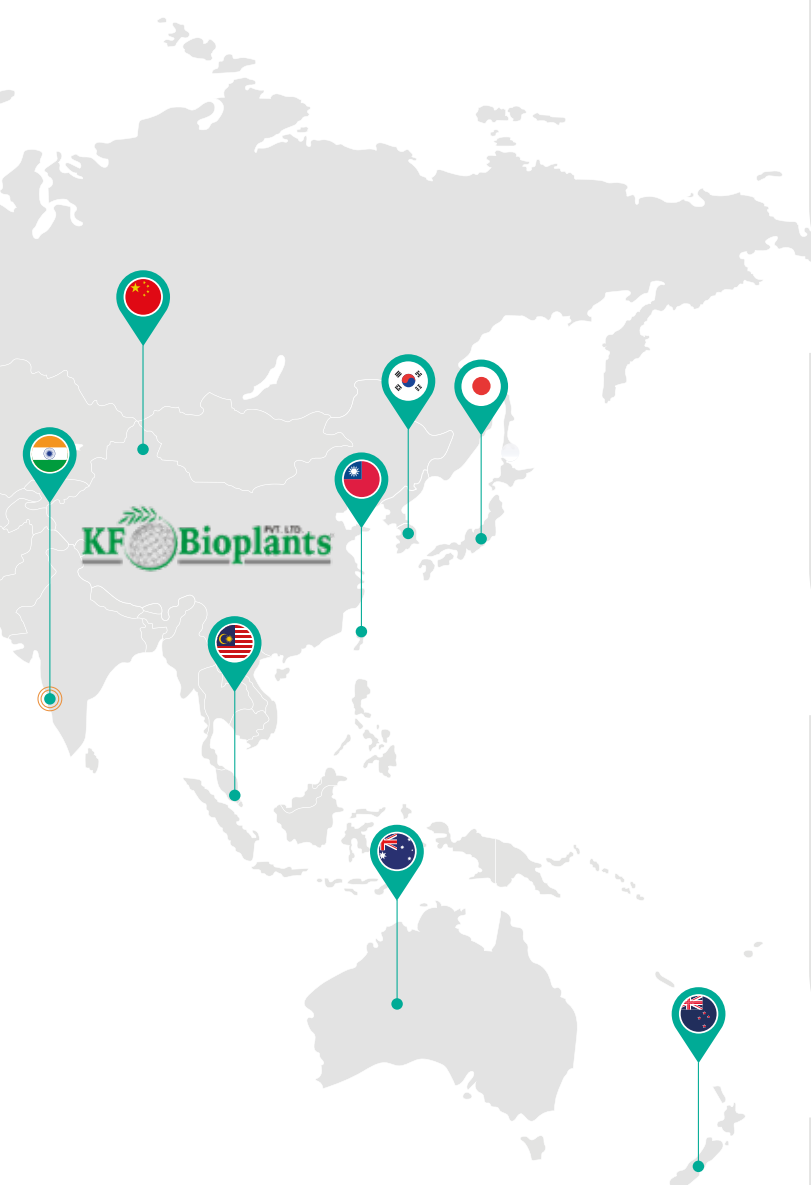

**KF Bioplants Pvt. Ltd.**

Joint venture in India between the Kumar Group and HilverdaFlorist. At multiple locations, tissue culture plants for the global market and young plants for the local market, are produced. [kfbioplants.com](http://kfbioplants.com)

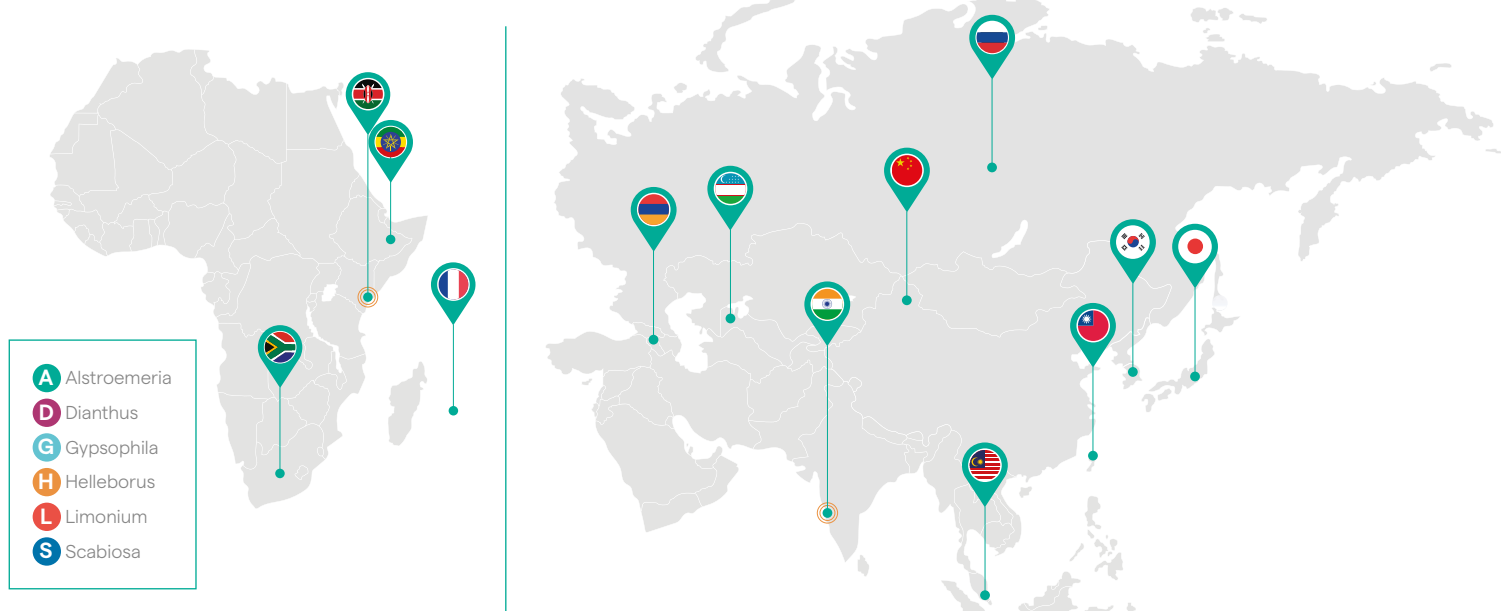

**HilverdaFlorist North America**

Subsidiary and brokerage in Canada, teaming up with rooting stations in Ontario and British Columbia, to sell and deliver rooted plant material of our pot, patio and garden plant range directly to the Canadian growers.

# World wide sales network

Meet the network of distribution partners of HilverdaFlorist. Get in touch with them to discuss our cut flower assortment. Together with our distribution partners we'll create the best mix of varieties for your market and business.
